

Billboard
Change
from
Instoremedia
to Teamviewer

Windows 10

Table of contents

1.Uninstall Instoremedia	3
2.Remote access	3
3.Start Billboard – 2 options !	4

1. Uninstall Instoremedia

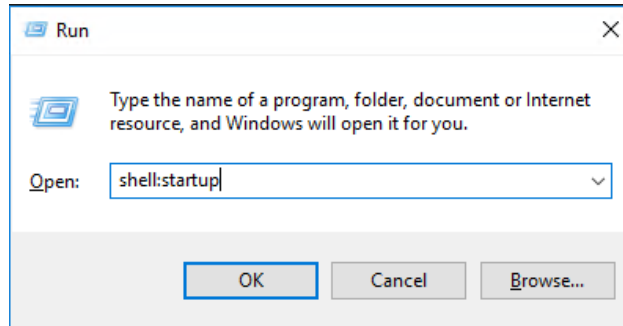

1. Disable Instoremedia-View:
Press Ctrl-Shift-P
2. Uninstall Instoremedia:
Windows Explorer → This PC → Uninstall → Instoremedia → Uninstall
3. If Password is needed:
 - User = bb-admin
 - Password = contact support@flowscape.se

2. Remote access

1. Install and start Teamviewer Host (download from our website).
2. Settings – Security
 - a. Set a permanent password → email ID & PW to support@flowscape.se
 - b. Grant easy access: TRUE
 - c. Random password: Disabled
 - d. Windows logon: Allowed for administrators only
3. Advanced
 - a. Check for new version: never
 - b. Disable Teamviewer shutdown

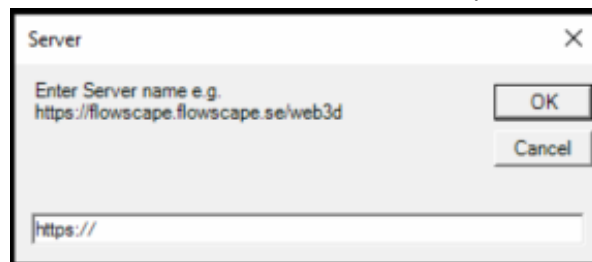

3. Start Billboard – 2 options !

- ➔ Contact Flowscape for the correct billboard URL. It is necessary for this procedure.
- ➔ Press **Windows key + R**. Type **shell:startup** and click **OK**.

A. Powershell version (preferred!)

- a. Powershell execute: Set-ExecutionPolicy Unrestricted -Scope CurrentUser -Force
- b. C:\Flowscape\StartBillboard\Chrome\run.bat → copy file to Start-up folder.
- c. Restart PC → Fill in correct BB URL → Restart PC to verify → DONE.

- d. **Need to trigger again? → Delete file C:\Users\bb-user\servername.txt**
- e. Need to change URL? → Change file C:\Users\bb-user\servername.txt

B. Hard-coded version

- a. C:\Flowscape\StartBillboard\Chrome_old\run.bat → **copy file to Start-up folder**.
- b. Edit run.bat → Change the content to the correct Customer billboard URL.
