# Flowscape Roompanel T220 installation guide – installation on glass

## 1 Parts included in package

1x **1x** **1x**

Flowscape Roompanel T220, mounting plate with adhesive back and Ultra Thin 1mm ethernet cable.
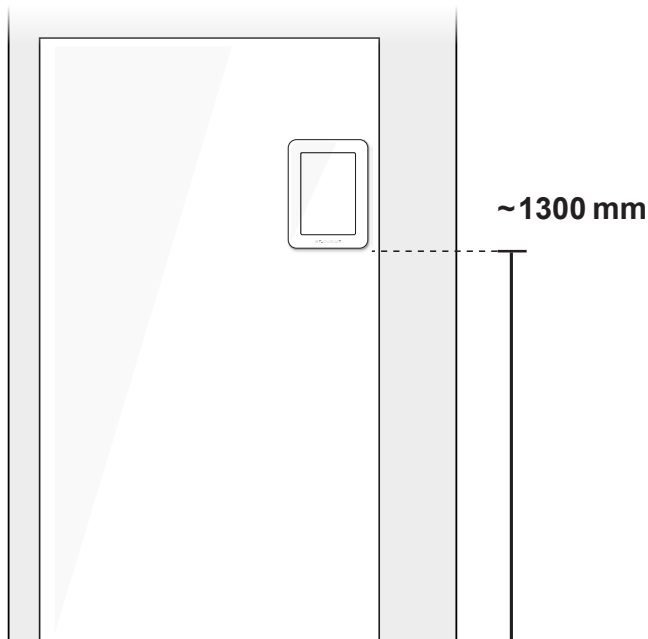

2 Clean the glass

isopropanol

Clean the glass from any dirt, dust or grease using isopropanol or ethanol, then leave to dry.

3 Suggested height

~1300 mm

*Preferably mount the roompanel close to the window edge to minimize visible cable routing. The cable can be routed in any direction.*
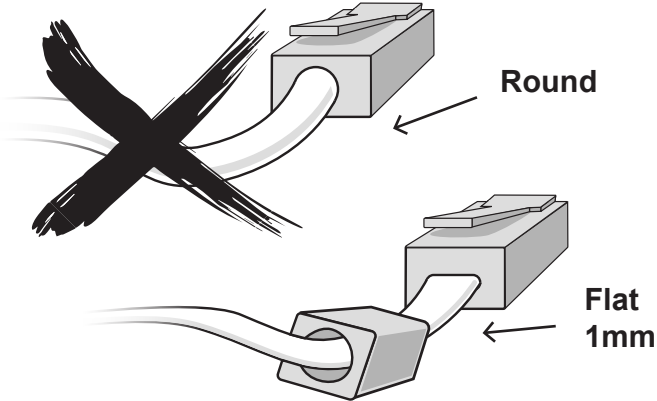

4 Attach the mount plate to the glass

Peel off the protective film on the back and attach the mount plate to the glass.

5 **Caution!** !

Round

Flat 1mm
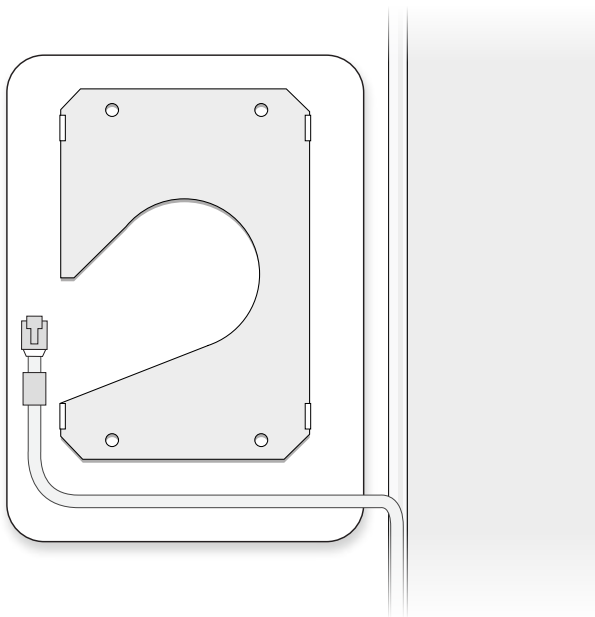

Always use the <u>included</u> ULTRA THIN 1MM Flat cable. Standard round ethernet cable will cause interference!

6 **Please notice!** !

FLOWSCAPE
Roompanel T220

Choke collar

Slip the choke collar of the included cable into the cable pocket.(The choke is needed to eliminate electromagnetic interference)

**7** **Hang panel & route the cable**

The ultra thin 1mm cable can be slided and hidden in between the plate and the roompanel.
