### How to Set Up a Room Panel

This manual describes how to get your room panel properly installed and working.

#### Make sure

- Before a room panel can be installed you should make sure that there is PoE via the Ethernet cable.
- Network must also be up and running.

#### Instructions

- 1. Hold down the reset button for **six seconds** until the ASUS-logo appears.
- 2. Attach the Ethernet cable and place to mounted wall brackets.
- 3. Press your finger on the "human" icon to reach the admin interface. Password: 084091222.
